

Michael G. Berry, P.E., S.E.
Executive Vice President
mgberry@hlreng.com

Mike Berry is a professional and structural engineer with more than 30 years of experience in transportation engineering and highway bridge design. He has been with HLR since 1993, having previously worked for Collins and Rice, Inc. and Tenney Pavoni Associates in Springfield, Illinois. Mike holds a Bachelor of Science degree in Civil Engineering from the University of Illinois.

Engineering Expertise

At HLR, Mike plans and designs bridge and highway projects for various county, state, and municipal clients. He supervises projects and the preparation of hydraulic reports, project development reports, and environmental assessments. Mike also prepares job cost estimates, proposals, agreements, and billings for various highway and bridge projects.

Throughout his 30-year career as a consulting engineer, Mike has prepared project development reports and roadway plans for more than 500 county, city and township bridge projects including:

- 9.5-mile County Highway widening, resurfacing, and intersection improvement project in Sangamon County, Illinois
- Reconstruction of 12 miles of County Highway 28 in Clark County, Illinois
- Steel I-beam bridge carrying Russell Road over the Des Plaines River in Lake County, Illinois
- Curved plate girder bridge over the Fox River at Millbrook in Kendall County, Illinois
- Haunched steel plate girder bridge carrying Fabyan Parkway over the Fox River in Kane County, Illinois

His additional experience includes:

- **ECAD & Phase II Engineering** — Environmental Class of Action Determination document and project development report for the extension of Orchard Road from RT 34 across the Fox River to RT 71 in Illinois; project manager for Phase II engineering
- **Corridor Study** — 12 miles of a new arterial County Highway on new and existing alignment crossing the Fox River west of Yorkville in Kendall County, Illinois
- **Hydraulic Report and Plan** — For the construction of a continuous pre-stressed I-beam bridge carrying East Lake Drive over the Lake Springfield Dam spillway in Springfield, Illinois

Responsiveness and Communication

At HLR, Mike is known for his consistency and conscientiousness in keeping projects on time and within budget, constantly looking for ways to help clients save money on project costs. He looks to provide clients with quick and accurate responses to pressing questions.

Public Service

For Mike, 30 years of experience means that he understands the cost concerns of public agencies and can communicate them to clients. He is attentive to local issues and committed to creating designs that work well for communities.

More About Mike

Mike is a member of NSPE, ISPE and ASCE. He enjoys family (he has 9 grandchildren), travel, fishing, golf, and University of Illinois basketball in his spare time.

“Clients are attracted to HLR because of our expertise, experience, and dedication to meeting their needs.”
